Dedication

The students, faculty, and the administration join in this expression of appreciation to Miss Irene Mills. She is remembered for her constant smile, her warm friendliness, and her untiring efforts to help the students of Nathaniel A. Narbonne High School be happier, more successful, and better citizens. In tribute to her we dedicate the 1954 EL ECO.

This school year has been an eventful one in our lives. For the first time in the history of our school the number of students enrolled exceeded the two thousand mark. In spite of the fact that the Board of Education built six new bungalows for us last summer, the growth was so rapid that these additional classrooms were not enough to accommodate our growth for the entire school year. Consequently we were forced to go on to a double session in February. However, in spite of these events, we have had a very successful year and I am very proud of both our sudents and our faculty as well as the community in making the adjustments to these events so easily and smoothly.

To our graduating seniors go my congratulations and best wishes for the future. They leave our school, I am sure, with the feeling of accomplishment that comes with a job well done. There is no substitute for an education. It is something that no-one can ever take away from them.

To you who have served your school so well in our service organizations, in clubs and in athletics, my thanks for helping others. I am sure you are better individuals for this thoughtfulness and for the work you have accomplished for your school.

Your school is a fine one—rich in traditions and bound to be as good as you have made it. In looking into the future we see even a better Narbonne High School, located on a new campus, under new environment. Let's all look forward to working together to make our new school even better than it is now.

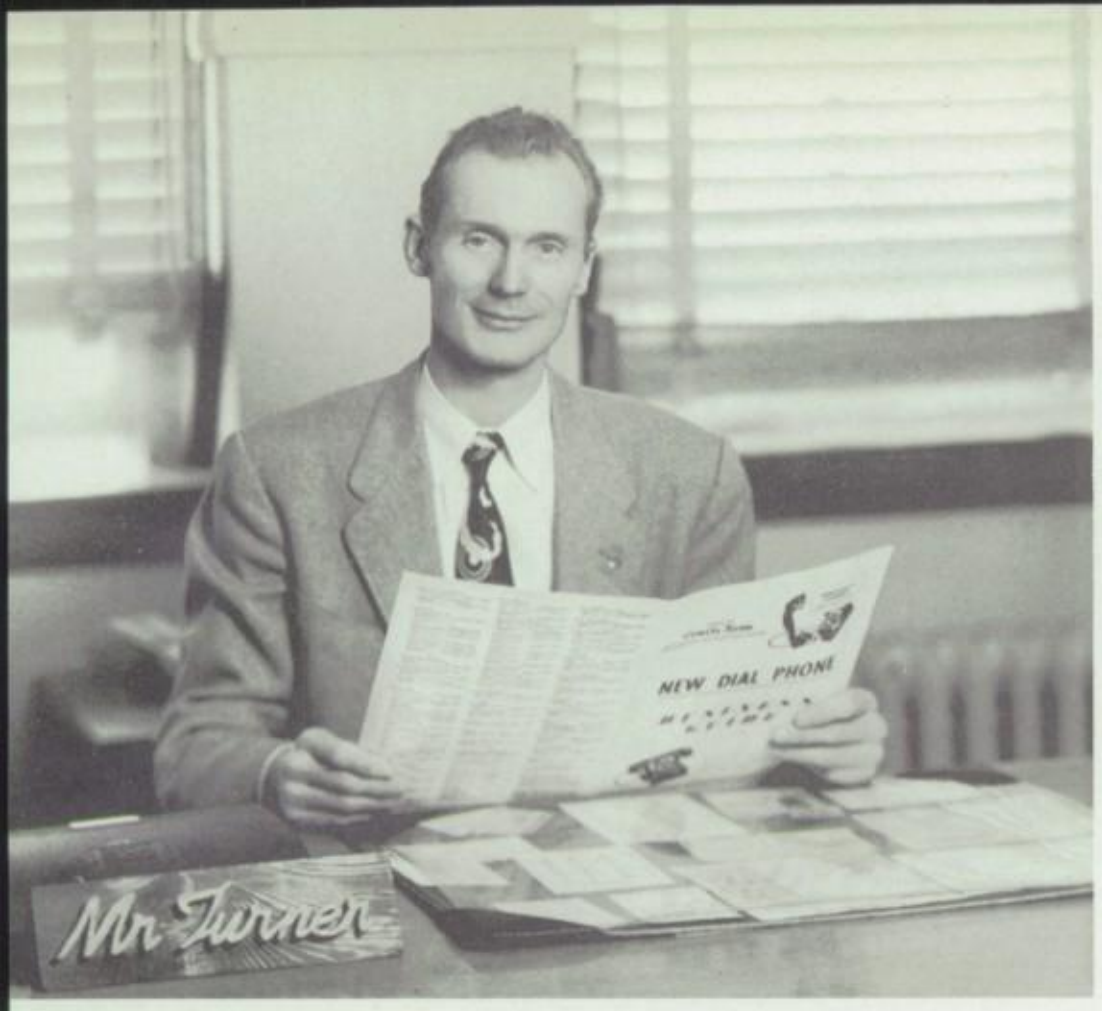
Earl S Bamett
Principal

Greetings to the classes of 1954. As we turn the pages of your annual, we appreciate anew the contributions you have made to our school both as class groups and as individuals.

Through your clubs, athletics, and student government organizations, we see the traditions and ideals of our school maintained and passed on to others; and we realize that while you will no longer be with us, the things for which you stood and built will remain.

When you leave us, may you continue to build so that your home and country may be the better because of you.

ELIZABETH F. PARKS
Girls' Vice-Principal



TO THE GRADUATING CLASS:

The American challenge to youth today is to be a respected citizen of our country. It is essential that justice, honesty, and dependability prevail in our people if we expect to continue our leadership in the world of tomorrow. It is through individual development that we can meet this challenge; individual development that is brought about only by effort and a great desire for personal integrity. Having met this challenge in high school, it is our hope that you enjoy continued success as a respected citizen of our country.

Sincerely,

PAT E. TURNER

To Whom Honors Are Due

Many people are best in physical activities where strong muscles, alertness, and skill bring them popularity and maybe fame. Some people are handsome and pretty so that people like them for their good looks, and some of them become famous in the entertainment world. Most people are just good "joes" that have many good friends; they make fair grades in school; they root for the Muscle Men; they admire the beautiful and the clever; and some of them win awards for attendance in school.

But schools were first built to help those who are exceptionally good in using their minds. The schools were made hard to toughen up the minds just as the coaches work their teams hard in order to win championships. Although most of the people in school now seldom strain either their muscles or their minds, there are many who do really work at it and find pleasure in being really good in such things as history, English, mathematics, languages, and science. In these days when there is less and less hard work required in life and more and more brain work to design and operate machines, it seems that we should see what Narbonne is doing to supply its share of these experts who are becoming so necessary to keep this complicated machine age running.

Therefore we salute these students who have achieved outstanding recognition for work usually done where few see it or recognize it. There have been no cheering throngs, but these have worked for the joy of doing well what they were asked to do. They do not strut about showing their prowess, but they are the backbone of the school and many achieved acclaim in sports, arts, and entertainment as well. We honor these who have been chosen because they are outstanding students.

Associate Justices: Gregg Hornaday, Craig Chudy, Dexter Goodell. Chief Justice: Joe Stits. Sponsor: Mr. Livingston-Little.

The Student Court

The Student Court is elected by the Student Body to give special instruction and assistance to students who have difficulty in living successfully in a crowded school. They sympathetically hear the excuses of those brought before them for conduct unbecoming a Narbonne Student. The Court tries to help these to understand the reasons why they should be more careful to observe the rules and regulations and then give them special activities to perform that will help them to remember to always be a Gaucho that all can be proud of.

Service Clubs

Service Clubs are a necessary part of a democratic school government. Members are above average in scholarship and citizenship. They are well liked, respected students, and they enjoy their work. New members are elected by present club members, the faculty, and the student body.

The most active clubs of Narbonne are Jane Addams, Vigilantes, Ladies, Knights, Baronettes, Barons, Las Juanitas, and Squires. The members of these clubs are pledged to give service to the school and the students, build morale, start valuable traditions, maintain order, create friendliness, promote good citizenship, help the students and protect their rights in all phases of school activities, and assist in enforcing the rules and laws of the school community. Some of the definite services rendered by these clubs are supervising the loading and unloading of school buses; keeping order in the halls, on the grounds, and in the cafeteria; checking lunch passes; ushering at school affairs; helping new students; and serving the school when and where needed.

The Girls' League is composed of all the girls of the school. The Girls' League promotes friendliness and cooperation among the girls and develops in them high ideals of service and loyalty to each other and to their school.

This year The Girls' League presented the talent show, "Girls' League Presents", which was a big success. They sponsored the March of Dimes, Blue Jeans Day, Backward Dance, Candied Apple Sale, and the noon assemblies. The officers went on invitation to other schools to attend their installations and teas.

Dear Lord, in the battle that goes on through life,
I ask but a field that is fair;
A chance that is equal with all in the strife;
A courage to strive and to dare.

And if I should win, let it be by the code,
With my faith and my honor held high;
And if I should lose, let me stand by the road
And cheer as the winners go by.

TO THE NARBONNE FACULTY
AND STUDENTS:

I want to say, now that I am retiring from teaching, that I have enjoyed my 25 years as an instructor at Narbonne and that I think that Narbonne High is one grand school.

I will always remember my fine contacts with the teachers, office staff, custodians, students and the community.

Albert H. Vogler
Printing Instructor

With all the fine features in this super 1954 El Eco you're giving a page to us "alumni" members of the faculty. Let us assure you that this makes us feel more than ever the cordial spirit of friendliness at Narbonne High School. As I have seen many of you, faculty and students, on the campus and about town this year, it has been a great joy to have you so cordial in your greeting.

Irene Mills

I wish to thank my friends for the help in making my work at Narbonne so pleasant.

Harrison M. Adkins
Gardener

The students and faculty of Narbonne High School wish to express to each of you our gratitude and appreciation for the fine service and the friendship that you have given so freely all during the years.

We extend to you our congratulations for reaching the retirement age in good health and wish you many more years of useful and valuable service to the community.
